3. Resolution on Open Access in Scholarly Publication (adopted from the University of Iowa Resolution: <http://www.uiowa.edu/~facsen/Agenda/Senate05-06/11-29-05/2-LibrariesResolution.htm>)

**WHEREAS Northeastern University's longstanding commitment to the free and open publication, presentation and discussion of research advances the interests of the scholarly community, the faculty individually, and the public, and**

**WHEREAS the costs of scholarly journals are continually rising at rates greater than the rate of inflation and higher than the rate of University budget increases, and**

**WHEREAS the activities of these publishers directly depend upon the continued participation of faculty at Northeastern University and similar institutions acting as editors, reviewers, and authors, and**

**WHEREAS a lasting solution to this problem requires not only interim measures but also a long range plan, and**

**WHEREAS publication in open access journals and repositories is an increasingly effective option for scholarly communication,**

**The Northeastern University Faculty Senate:**

- a. Encourages faculty to become familiar with the pricing and business practices of journals and journal publishers in their specialty, and to support journals and publishers whose pricing and accessibility policies promote broad and continuing access to scholarship.**
- b. Urges faculty, especially tenured faculty, to exert a positive influence on the direction of scholarly publishing through the choices they make in the submission of papers, the commitment of time to refereeing activities, and participation in editorial work.**
- c. Encourages faculty and the University to support new models for scholarly publishing, including open access journals and archives, disciplinary and institutional repositories and other approaches that enhance the broad dissemination of knowledge while preserving peer review and excellence in scholarship.**
- d. Urges faculty to maintain control of their scholarly work by retaining intellectual property rights, in order to allow them greater freedom to disseminate their work and thereby maximize the impact of their scholarship.**
- e. Calls upon the faculty and University administration to support these changes by providing incentives and assistance to for those advancing alternative models.**

**[Note: Nothing in this resolution is intended to detract from recognition of the link between journal quality and scholarly benefits to individuals, departments and the University, or to undermine the central role of the peer review process in academic publication. Rather, the goal is to encourage publication in open-access sources where these goals will not be compromised, to increase the range and quality of open access journals and archives, and to encourage journal editors and publishers to support open access goals.]**
